NATIONAL APPRENTICESHIP PROMOTION SCHEME-2 (NAPS-2)

Autocal Engineers is also providing Apprenticeship Training Consultancy.

ROLE OF AUTOCAL ENGINEERS

1. Assist employers for Registration of contract proposal to Central / State Govt. with suitable trades of Apprentices
2. To Register on Portal every apprentice detail with Aadhar number.
3. Prepare Apprenticeship Contract Registration Card, & submission to Central / State Govt.
4. Submit quarterly report of progress of Apprentices to Central Govt.
5. Submission of Premature Termination Proposal and Employment Information of completed training Apprentices.
6. Submission of Returns, Contract, Exam Form, Session Marks, Trade Theory of Apprenticeship on portal.

AVAILABLE OPTIONS UNDER NAPS-2

At the time of contract creation, an establishment will have an option to choose for every apprenticeship contract whether they would like to avail the financial benefit under NAPS-2 or not.

Large private organisations will be encouraged to join a 'Give It Up Campaign" and forego the stipend support by Govt. of India (GoI) under the scheme.

- i. Contracts where the establishment chooses to take the financial benefit will be DBT contracts (also referred to as NAPS-2 contracts). For this Portal will show the establishment share and GoI share
- ii. Contracts where the establishment chooses not to take the financial benefit will be non-DBT contracts (also referred to as non-NAPS-2 contracts). Such a contract will reflect that the entire stipend amount will be paid by the establishment.

EXPATRIATE MANAGEMENT SERVICES

The service consists of the business process associated with the transfer of an assignee and their family providing a seamless and effective integration into the new community during short term or long term visits.

The relocation process typically begins with the planning and execution of the transfer of the employee, followed by the post-transfer support provided in the host country, and ends with the departure services.
